GALAXY

Professional RIBs

2024

The range of reliable professional RIB PILOT models includes:

- Reinforced hull;
- Additional metal keel protection;
- Boat equipment to meet the individual needs and tasks of the user.

PILOT P5

PILOT P4, P4.5 and P5 are professional RIBs, the smallest in the GALAXY model range. Lightweight and mobile. Available with equipment options including a tiller or remote control. Designed for patrolling, rescue, commercial use, and more, in both inland and marine coastal waters.

PILOT P6

PILOT P6, P6.5, P7 are professional RIBs with a broad spectrum of applications, created for use in fire/search-and-rescue operations, security activities, and patrolling in inland and coastal waters. These models have excelled in performing professional and commercial tasks. Their lightness, outstanding seaworthiness, and high load capacity ensure reliability and ease of use.

PILOT P8

PILOT P8, P10, P12 are high-performance, reliable professional RIBs for security and rescue needs, fire/search-and-rescue operations, security and patrolling. They are successfully used in scientific and commercial expeditions for marine fauna observation, as well as for coastal marine cruises, passenger transport, and as commercial boats in inland and coastal waters.

- HYPALON
- Black tube / Decor on request
- TPU Polyurethane
- HYPALON

The TRIDENT model range is distinguished by a reinforced boat structure, allowing for commercial and professional use in challenging and extreme conditions:

- Aluminum hull with spray rail;
- D-shaped tube available in 3 options;
- Enlarged cockpit;
- Reinforced hull;
- Increased safety.

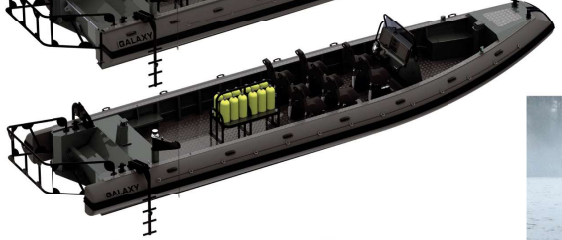

T7
650 cm (21' 4") long
250 HP max, 10 pers

T8
780 cm (25' 7") long
500 HP max, 14 pers

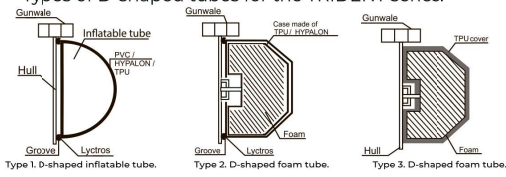

T10
960 cm (31' 6") long
700 HP max, 16 pers

T12
1160 cm (38' 1") long
1200 HP max, 20 pers

Types of D-shaped tubes for the TRIDENT series:

TRIDENT T7

TRIDENT T7 - reliability, quality, technical sophistication. This boat meets all the requirements for patrol, security operations, military, and commercial boats. Its ultra-strong aluminum hull construction includes several options for D-shaped tubes, including a foam-filled tube coated with polyurethane. The embodiment of the D-TUBE concept makes it unique and exceptionally sturdy among professional/commercial boats, adapted for extreme operating conditions.

TRIDENT T8

The HL450, HD460M, and HC520 inflatable boats are specifically developed for a wide range of tasks and have proven effective in military operations, including reconnaissance, landing operations, rescue and evacuation, as well as maritime patrolling. The tube can be optionally filled with foam to enhance the boat's safety and reliability in challenging conditions.

HD460M

HL450
450 cm (14' 9") long
50 HP max, 10 pers

HD460M
470 cm (15' 7") long
50 HP max, 10 pers

HC520
520 cm (17' 1") long
8 HP max, 5 pers
